## PROFESSIONAL SUMMARY

---

Passionate final-year Computer Science Engineering student with expertise in the MERN stack, Java and backend development. Skilled in data structures, algorithms, and web technologies, with a strong focus on creating innovative, efficient solutions. Enthusiastic about exploring new technologies and building dynamic, user friendly applications through full-stack development.

## TECHNICAL SKILLS

---

- **Programming Languages:** Java, JavaScript, Python , C, SQL.
- **Technologies/Framework:**
  - **Frontend:**HTML5, CSS3,Tailwind CSS, ReactJS.
  - **Backend:** NodeJS, ExpressJS.
  - **Database:** MySQL, MongoDB.
- **Version Control:** Git, GitHub.
- **Developer Tools:** VS Code

## COURSEWORK / SKILLS

---

- Data Structures & Algorithms (DSA)
- Database Management System (DBMS)
- Operating Systems
- Software Engineering
- OOPS Concept
- Web Development

## EDUCATION

---

### Bachelor of Engineering (Computer Science)

Dr. Ambedkar Institute of Technology

November 2021 -August 2025

**CGPA 8.61**

### Class 12<sup>th</sup> - Karnataka State Board (PCMB)

BASE PU College

May 2019 – May 2020

**Percentage - 85.6%**

### Class 10<sup>th</sup> - CBSE

SG International public school

May 2012 – May 2013

**Percentage - 91.6%**

## EXPERIENCE

---

### Mevi Technologies LLP Bangalore | [\[link\]](#)

October 2023 -November 2023

Frontend Web Developer Intern

- Engineered user-friendly page structures, increase in user engagement through responsive and cross- browser compatible designs. Developed efficient code,accelerating page load time using various markup languages.

## PROJECTS

---

### Courier Management System

June 2024 - August 2024

- Developed a courier management system using Node.js, Express.js, React, and MongoDB.
- Designed a responsive UI with React and Bootstrap.
- Enhanced efficiency and user experience with a responsive UI and real-time tracking updates.

### Latest News Portal

April 2024 - April 2024

- Developed a news web page using HTML, CSS, and JavaScript
- Fetched and displayed news articles from an API, allowing users to filter by category or search for specific topics.
- Provided a dynamic and interactive platform for users to stay updated with the latest news.
